**M:** Hello, teachers. This is Tyler Harrison, our school's computer technician. Due to a recent request from the city's Department of Education, I'll be upgrading all of the computer operating systems. This is necessary because the old system will stop supporting automatic updates of the security system starting next month. In order to proceed with the upgrades, your computers must be formatted, which means that all the data on them will be deleted. So, make sure to back up your data by this Friday. The upgrades will start next Monday. Thank you for your cooperation.
